Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS Manage multiple loans. Reduce the settlement amount. Get a simple repayment plan.	THINKS Can I repay on time? Which loan should I prioritize first? Will negotiation work?
	PERSONA NAME Borrower (Loan User)
	FEELS Stressed about debt. Uncertain about repayments. Relieved by personalized guidance.
DOES Enter loan and income details. Check financial health and EMI ratio. Generate settlement letters.
