Project Executable Files

This section requires submission of all executable and deployable files for your project. Ensure all files are properly organized, named, and uploaded to the specified submission platform. The evaluator must be able to run or deploy your solution using the provided files and instructions.

Step 1: Submission Checklist

S.No	Item to Submit	Submitted (Yes / No / NA)
1	Complete source code (all files and folders)	Yes
2	README / Setup Guide (instructions to run the project)	Yes
3	requirements.txt / package.json / dependency file	Yes
4	Database schema / seed files (if applicable)	Yes
5	Environment configuration file (.env.example or similar)	Yes
6	Deployed application URL (if hosted)	NA
7	APK / Executable binary (if applicable for mobile/desktop apps)	NA
8	Dockerfile / Containerization config (if applicable)	NA
9	Test files and test results	Yes
10	Demo video or walkthrough (if required)	Yes

Step 2: File / Folder Structure

Provide an overview of your project's file and folder structure below:

/FinReliefA	
├── /app - FastAPI backend	
│ ├── /services - Business logic	
│ └── /utils - Utilities	
├── /frontend - React frontend	
├── finrelief.db - SQLite database	
├── requirements.txt	
├── .env.example	
└── README.md	

Step 3: Deployment / Access Details

Field	Details
Hosted / Deployed URL	NA
Login Credentials (Demo)	example@email.com
Platform / Hosting Provider	Local Development Server
Repository Link	https://github.com/JoelPrasannaKumar/finrelief
Demo Video Link	https://drive.google.com/file/d/1auKMgYnHGDgFiNSA1gfPxoXLUP0fm5v3/view?usp=drive_link

Step 4: Run Instructions

Provide clear, step-by-step instructions for the evaluator to run your project locally:

Pre-requisites:

Step 1: Clone the GitHub repository.

Step 2: Install backend dependencies: `pip install -r requirements.txt`

Step 3: Configure required environment variables.

Step 4: Start backend: `uvicorn app.main:app --reload`

Step 5: Open frontend folder and run: `npm install`

Step 6: Start frontend: `npm run dev`

Step 7: Open the displayed local URL in browser.

Step 5: Known Issues / Limitations

S.No	Known Issue / Limitation	Workaround / Status
1	Requires internet for AI services	Ensure active connection
2	AI responses may vary	Rule-based fallback available
3	Currently tested locally	Cloud deployment planned
